INTRODUCTION

This database serves as a crucial tool for efficiently storing and displaying updates related to DevNet's overall database. With a significant number of customers on a yearly and monthly basis, DevNet's employees can access the database to manage and update customer information for order clarification. Additionally, employees can also verify their own team members' performance to ensure they are fulfilling their responsibilities and maintaining the company's smooth operation.

INSTRUCTIONS

FOR CUSTOMERS

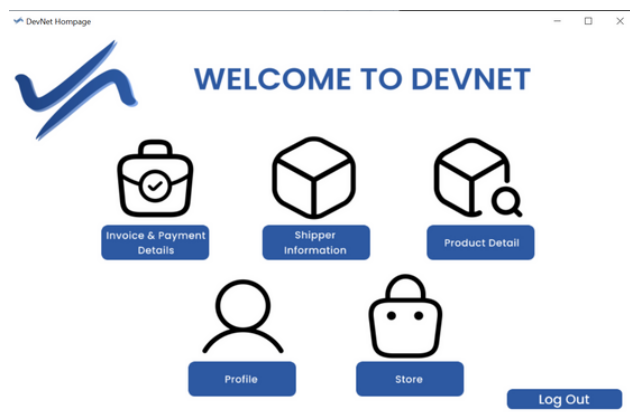

Select the customer option

State your username and password

Choose the options in the customer menu

Feel free to check the data and purchase the products!

INSTRUCTIONS

FOR EMPLOYEES

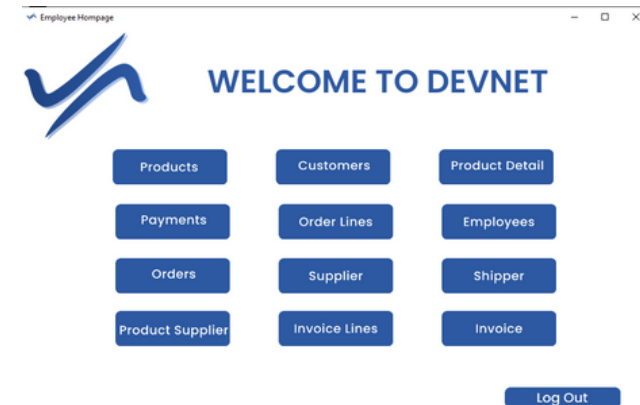

Select the Employee option

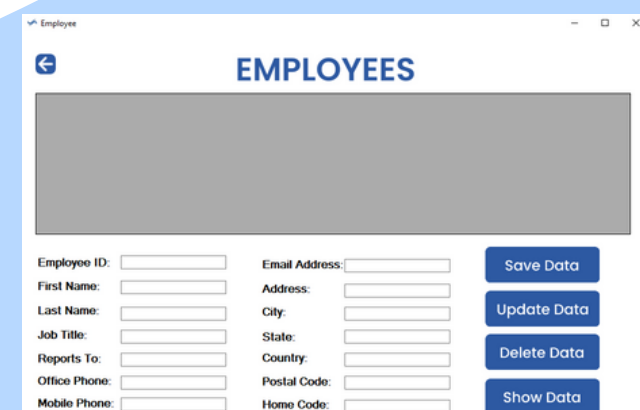

State your username and password

Choose the options in the employee menu

Feel free to view, update, delete, and save data!

TROUBLE-SHOOTING

Customers have to remember their passwords.

Customers data has limited access (No Updates or Delete Data).

Application will only work for windows.

FAQ'S

FREQUENTLY ASKED QUESTIONS

WHAT IS THIS APP FOR?

This app is used for storing databases regarding customer purchases, order status, and employee information.

CAN CUSTOMERS UPDATE/DELETE DATA?

No, if someone wants to update/delete data, only the employee has the privilege to that. If you want to delete data or update, customers should contact our staff members or an email to joseph.chamdani@devnet.network

CAN WE CHANGE PASSWORDS?

No, if a user would like to change their password, it wouldn't be possible because every user has a fixed password and username

PROFILE

My name is Joseph Davis Chamdani, I am 15 years old and I was born in Indonesia. Currently, I'm studying in Sekolah Highscope Indonesia acting as the founder and CEO of DevNet. Coding is something that I enjoy and have been fascinated with ever since the start of high school.

Developer Network is a company that I've been eager to put effort into ever since the start of 2023 and this database is designed to make life easier for our employees and our customers.
